

Independence LED Lighting

Overview: Independence LED Lighting is one of the first authentic US manufacturers of Buy American Act (BAA) Compliant commercial interior LED light fixtures. In 2010 we moved our manufacturing from China to southeaster Pennsylvania, and we have expanded our line to include 12 major product categories with over 1,000 subset SKUs.

Products: <https://independenced.com/made-in-usa-led-fixtures/>

Specifications: <https://independenced.com/spec-sheets/>

Pricing: <https://independenced.com/pdfs/iLED-Master-Price-List-10-26-17.pdf>

Competitors: There are only a few authentic BAA Complaint manufacturers such as Orion and Lamar Lighting, and many others either offer just a few BAA products or mislead buyers with “assembled” in America, which does not comply with BAA.

Business - Advantages to working with us:

- Our Reps keep 100% of sales overage
- Our Reps get paid on time
- Our Reps get positive “Thank You” calls from customers

- Competitive Pricing - Lowest Total Cost of Ownership
- \$0 Upfront Cost Options - Cash flow positive from day one
- Custom Engineering - Specialty fixture design

BAA 25.101 (a)(1)+(2)

LED LIGHTING

Manufactured in U.S.A. with
Over 50% Domestic Components

**10 Year Warranty:
100,000 Hour Life
10 Years in Business**

Technology - Unique to Independence for “Spec Locker” performance:

- Direct Current (DC) Lighting and Microgrid system technology
State-of-the-art for maximum energy efficiency and energy resilience
- Remote Pendant System – Great for open, drop ceilings, & asymmetrical up/down illumination
- Aisle Lights – Great for high ceilings in distribution centers and warehouses with narrow aisles
- Smart Control Technology “Enabled” – Great for adding RFID, Bluetooth, LliFi and more
- Magnetic Strip Kits – Great for troffer retrofits as option over LED tubes
- Type C (external driver) LED tubes – all lengths including 8’ LED tubes at multiple output levels and colors all of which are “isolated” from tombstones for delamping and maximum savings

All of the above and other Independence LED tech include:

- Buy American Act (BAA) Compliance – Ideal for U.S. Government projects)
- 10 Year Warranty – Best in market with no limits on operating hours and “worry free” protection on labor

Inventory and Lead Time: Our manufacturing is “build to suit,” to match the exact needs of end users with multiple options for output, color, lens, beam angle, on-board sensors, etc.
